**WELCOME** to the Lecco province, a land abundant in nature, history and culture that gifts a unique experience to every visitor.

**LAKE COMO**, with its pristine waters and picturesque shores, is the beating heart of the area. Travellers can admire enchanting villages with colourful alleyways and heritage houses, stroll along ancient trails led by wayfarers, enjoy the sunset from the city lakeside and savour the local food and wine culture. The **MOUNTAINS** are the hub of this rich territory and offer many opportunities for **OUTDOOR LOVERS**. Hikes, climbs and trekking routes suitable for all levels of fitness will allow you to be immersed in nature and enjoy extraordinary views. And as the rocky ridges of the mountains give way to the gentle **HILLS** of Brianza, the landscape is enriched with vineyards, routes and forests

where you can wander and relax, discover new scenery and authentic flavours.

The province of Lecco is also a place steeped in **HISTORY AND CULTURE**. The deep connection between Lecco and Alessandro Manzoni is striking and you can experience it throughout the places that inspired many of the settings in his masterpiece, *I promessi sposi*, published in English as *The Betrothed*. The history of Lecco from the Middle Ages to the industrial age is disclosed in the museums spread around the territory, where you can learn and admire scientific, geological and astronomical discoveries and find out about the traditions of ancient arts and crafts.

Lecco welcomes you with its natural beauty, historical heritage and authentic traditions: a land of nature, history, culture and wonders awaits you.

*Enjoy your visit!*

There is no better way to experience the historic centre of Lecco than on foot: strolling along the lake, you will discover some of its architectural gems, such as the **BELL TOWER**, known as the “Matitone” or the “*Big Pencil*” to indicate its characteristic elongated and pointed shape. Completed in 1904 on the base of a fifteenth-century tower, the bell tower tells the city’s story, grafted along the perimeter of the old city walls, and at 96 metres high it ranks among the tallest in Italy.

Next to the Bell Tower, stands the neoclassical **BASILICA DI SAN NICOLÒ**, dedicated to the city’s patron saint and to seafarers. From the staircase in front of the Basilica, you can

enjoy a beautiful view over Lecco’s squares, that tell the story and identity of the area.

**LECCO’S CEMETERIES** also preserve a heritage of art and memory: the **MONUMENTAL CEMETERY** and the **LAORCA CEMETERY**, authentic open-air museums where architecture, sculpture and spirituality merge in harmony with the surrounding landscape.

Lakefront sunsets are a must: strolling among the golden reflections on the water with the mountains as a backdrop offers a unique experience, in an atmosphere that is romantic, serene and unforgettable.

Among the twelve routes, the **SENTIERO DEL VIANDANTE** is the most famous and scenic. One of Lombardy's most beautiful hiking trails, it follows an ancient mule track along the eastern coast of Lake Como, from Lecco to Sorico, and can be walked in either direction.

Colico - Sorico (11.5 km)

Some sections include steep climbs and uneven surfaces, while others are easier and shorter - ideal for families with children on day hikes.

The trail has evolved over time, blending paths of different origins and names. Once visited by pilgrims and travelers, it still preserves **ANCIENT REST STOPS AND SHELTERS** from past centuries.

The **SENTIERO DI LEONARDO** is a mostly flat, accessible cycling and walking path along the **ADDA RIVER**, connecting Lecco to Milan. Much of the route has a paved or gently uneven surface, making

it suitable for bicycles, strollers, and even wheelchairs in many sections.

# EVENTS THAT ENLIVEN THE TERRITORY AND CREATE UNFORGETTABLE MEMORIES

The city is lit up with the now-famous **LIGHTS ON LECCO**: stunning video mapping projections that turn the buildings of the old town into a magical Christmas fairytale, enchanting visitors of all ages.

In Lecco, Christmas is also about tradition. On December 6th, the city celebrates its patron saint, **SAN NICOLÒ**, with a popular local nursery rhyme: *“San Nicolò porta i pomm. Sant’Ambroeuus i ha fa coeuss, la Madonna i ha pelaa; el Bambin i ha mangià!”*, in English, the rhyme goes: *Saint Nicholas brings us apples, Saint Ambrose cooks them, the Virgin Mary peels them; Baby Jesus eats them!*

This playful rhyme honours the **TRADITION OF SAINT NICHOLAS’S APPLES**. According to legend, in the 4th century, Bishop Nicholas gifted three apples to three poor children, which turned into gold and saved the children’s families from poverty.

Still today, on the night between 5th and 6th December, children in Lecco excitedly await a special apple “dressed” as Saint Nicholas - symbol of prosperity and hope.

## THE CULTURAL SOUL OF THE LECCO TERRITORY

The traditions of Lecco are more than celebrations - they are living expressions of the area’s cultural and historical identity; they bring communities together and keep local stories and heritage alive.

**LECCO CARNIVAL**, dating back to 1884, is a joyful explosion of colour, music, and fun. Each year, King **RESEGONE** and Queen **GRIGNA** (named after the surrounding mountains) are chosen from among the community and symbolically receive the keys to the city.

Every two years in October, the village of **PREMANA**, in Valsassina, takes a step back in time with the event **“PREMANA RIVIVE L’ANTICO”** (*Premana Brings the Ancient Back to Life*). The entire community transforms, recreating life as it was in past centuries, with artisans, crafts, and scenes from everyday history. On the evening of January 5th, **BELLANO** hosts the centuries-old celebration of **“PESA VEGIA”** (*Old Weights*), a tradition dating back to 1605, when locals petitioned the Spanish governor to reinstate the old system of weights and measures. Each year, the event is brought to life through historical re-enactments and blazing bonfires on the lakefront.
